

## **LAST LEAVES OF AUTUMN**

(Capo 3<sup>rd</sup> – ie in Bb)

G  
Over the meadow -- the dark gathers round  
C G  
As the sun ----- is slowly sinking  
G  
And I watch as the shadows -- fade on the ground  
C G  
Like the memories ----- I've been thinking  
D C G  
Memories of you and me -- I'm trying so hard to retain  
Dm C G  
Now the feeling of being in your arms -- I will never know again

G  
The light has been taken -- from all I held dear  
C G  
Now I stare ----- at a cold lonely winter  
G  
All that I dreamed of -- and all that we shared  
C G  
Has been crushed ----- into splinters  
D C G  
And a feeling of loss -- and confusion is all that remains  
Dm C G  
As I try to remember a life -- I will never know again

### ***(INSTRUMENTAL)***

G  
The last leaves of Autumn -- fall to the ground  
C G  
As the branches ----- keep on swaying  
G  
And I watch as the cruel wind -- blows them around  
C G  
Now they're parched ----- and decaying  
D C G  
And the trees are left naked -- exposed to the wind and the rain  
Dm C G  
Left like the love that we shared -- and will never share again
