

## LONG TIME COMING DOWN

**Intro: D --- C --- G --- D --- F ---- G --- D**

D C G D  
I stand on the deck and I stare at the river

F G D  
Feel the wind coming round

D C G D  
And the water it flickers with neon lights shining

F G D  
All the colours of town

**F#m G**  
**And it's so far away from the hills of Pit Plain**

**E A**  
**--- How I long to be with you again**

**D C G D**  
**It's been such a long time I've watched and I've waited**

**F G D**  
**--- Long time coming down**

D C G D  
I spend every week in this boat on the river

F G D  
Home from home here in town

D C G D  
And I cycle each day from the boat to the factory

F G D  
Fumes of cars all around **(Chorus)**

D C G D  
I long to be back in those green fields and forests

F G D  
Back on true solid ground

D C G D  
Far, far away from the noise of this traffic

F G D  
Far from all of these sounds **(Chorus)**
