

PLEASE DON'T TURN ME AWAY

(Capo 4 – ie in E)

(INTRO: Last two lines of verse: **Guitar**)

Memories of summer --- thoughts of the past --- days that were ended too soon
damp faded colours --- and skies overcast --- are all that I see without you
show me that sun again --- that I once found --- in your eyes on a soft summer day
for I've loved you a long time --- and I'm needing you now
please don't turn me away

I've tried to forget you --- as once we agreed --- and leave all contrition behind
but I'm tied up by feelings --- that won't set me free --- until you'll agree to me mine
you stand like a statue --- flagrantly proud --- and tell me that I'll never change
but I've loved you a long time --- and I'm needing you now
please don't turn me away

No, don't turn me back --- when I've travelled so far
and all my defences are low
I just want to hold you again in my arms
the way that it was long ago

(INSTRUMENTAL VERSE – **Fiddle / Dobro**)

Memories of summer --- thoughts of the past --- days that were ended too soon
damp faded colours --- and skies overcast --- are all that I see without you
show me that sun again --- that I once found --- in your eyes on a soft summer day
for I've loved you a long time --- and I'm needing you now
please don't turn me away
