

PLEASE DON'T TURN ME AWAY

(INTRO: Last two lines of verse: **Guitar**)

E A E B  
Memories of summer --- thoughts of the past --- days that were ended too soon  
E A E B E -- E7  
damp faded colours --- and skies overcast --- are all that I see without you  
A E C#m F# B  
show me that sun again --- that I once found --- in your eyes on a soft summer day  
E A E  
for I've loved you a long time --- and I'm needing you now  
B E  
please don't turn me away

E A E B  
I've tried to forget you --- as once we agreed --- and leave all contrition behind  
E A E B E - E7  
but I'm tied up by feelings --- that won't set me free --- until you'll agree to me mine  
A E C#m F# B  
you stand like a statue --- flagrantly proud --- and tell me that I'll never change  
E A E  
but I've loved you a long time --- and I'm needing you now  
B E  
please don't turn me away

A E C#m  
No, don't turn me back --- when I've travelled so far  
A B E  
and all my defences are low  
A G#7 C#m  
I just want to hold you again in my arms  
A B - B7  
the way that it was long ago
